Consolidated Management report

The Board of Directors of EMMA GAMMA LIMITED (the "Company") presents to the members its Annual Report together with the audited consolidated financial statements of the Company and its subsidiary companies (together referred to as the "Group") for the year ended 31 December 2021.

INCORPORATION

The Company was incorporated in Cyprus on 16 September 2015 as a private limited liability company under the Cyprus Companies Law, Cap. 113.

PRINCIPAL ACTIVITIES

The principal activities of the Group are the provision of financing, the holding of investments and provision of betting activities and casino games.

FINANCIAL RESULTS

The Group's financial results for the year ended 31 December 2021 are set out on page 11 in the consolidated financial statements. The net profit for the year 2021 amounted to TEUR 56,314 (2020: net profit TEUR 44,058).

EXAMINATION OF THE DEVELOPMENT, POSITION AND PERFORMANCE OF THE ACTIVITIES OF THE GROUP

The Group's net profit attributable to equity holders of the Company for the year ended 31 December 2021 amounted to TEUR 34,654 (2020: TEUR 27,310).

REVENUE

The Group's revenues and other income for the year ended 31 December 2021 amounted to TEUR 134,808 (2020: TEUR 112,025).

DIVIDENDS

During 2021, the Group declared dividends (including interim dividends) to EMMA ALPHA HOLDING LTD in the total amount of TEUR 105,500 (out of which TEUR 102,500 were paid in 2021). Dividends (including interim dividends) in the total amount of TEUR 18,426 and other distributions of TEUR 391 were distributed to minority shareholders of subsidiaries.

During 2020, the Group declared and distributed interim dividends to EMMA ALPHA HOLDING LTD in the total amount of TEUR 88,000. Dividends (including interim dividends) in the total amount of TEUR 17,681 and other distributions of TEUR 587 were distributed to minority shareholders of subsidiaries.

MAIN RISKS AND UNCERTAINTIES

The main risks and uncertainties faced by the Group and the steps taken to manage these risks are described in Note 4 of the consolidated financial statements.

FUTURE DEVELOPMENTS

The Board of Directors does not expect major changes in the principal activities of the Group in the foreseeable future.

SHARE CAPITAL

There were no changes in the ordinary share capital of the Company during the year.

Consolidated Management report (continued)

BRANCHES

During the year ended 31 December 2021 and 31 December 2020, the Group did not operate any branches.

BOARD OF DIRECTORS

The members of the Company's Board of Directors as at 31 December 2021 and at the date of this report are presented on page 3. All of them were members of the Board of Directors during the year ended 31 December 2021.

In accordance with the Company's Articles of Association, all directors presently members of the Board continue in their office.

There were no significant changes in the composition, assignment of responsibilities and remuneration of the Board of Directors.

ACCOUNTING RECORDS

The books of the Group for the year 2021 were maintained internally.

RECENT VOLATILITY IN GLOBAL FINANCIAL MARKETS

Any significant events that relate to the operating environment of the Group are described in Notes 5 and 6 of the consolidated financial statements.

EVENTS AFTER THE REPORTING PERIOD

Any significant events that occurred after the end of the reporting period are described in Note 32 of the consolidated financial statements.

RELATED PARTY TRANSACTIONS

Related party transactions are disclosed in Note 31 of the consolidated financial statements.

INDEPENDENT AUDITORS

The independent auditors of the Company, KPMG Limited, have expressed their willingness to continue in office. A resolution giving authority to the Board of Directors to fix their remuneration will be submitted at the forthcoming Annual General Meeting.

By order of the Board of Directors,

Demetrios Aletraris

Director

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF EMMA GAMMA LIMITED

Report on the audit of the consolidated financial statements

Opinion

We have audited the consolidated financial statements of Emma Gamma Limited (the "Company") and its subsidiaries (the "Group"), which are presented on pages 9 to 69 and comprise the consolidated statement of financial position as at 31 December 2021, and the consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union ("IFRS-EU") and the requirements of the Cyprus Companies Law, Cap. 113, as amended from time to time (the "Companies Law, Cap. 113").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the consolidated financial statements" section of our report. We are independent of the Group in accordance with the International Code of Ethics (Including International Independence Standards) for Professional Accountants of the International Ethics Standards Board for Accountants ("IESBA Code") together with the ethical requirements in Cyprus that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF

EMMA GAMMA LIMITED

Report on the audit of the consolidated financial statements (continued)

Other information

The Board of Directors is responsible for the other information. The other information comprises the Consolidated Management Report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon, except as required by the Companies Law, Cap. 113.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

With regards to the consolidated management report, our report in this regard is presented in the "Report on other legal requirements" section.

Responsibilities of the Board of Directors for the consolidated financial statements

The Board of Directors is responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with IFRS-EU and the requirements of the Companies Law, Cap. 113, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless there is an intention to either liquidate the Group or to cease the Group's operations, or there is no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF

EMMA GAMMA LIMITED

Report on the audit of the consolidated financial statements (continued)

Auditors' responsibilities for the audit of the consolidated financial statements (continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities of the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other legal requirements

Pursuant to the additional requirements of the Auditors Law 2017, L.53(I)/2017, as amended from time to time ("Law L.53(I)/2017"), and based on the work undertaken in the course of our audit, we report the following:

- In our opinion, the consolidated management report, the preparation of which is the responsibility of the Board of Directors, has been prepared in accordance with the requirements of the Companies Law, Cap. 113, and the information given is consistent with the consolidated financial statements.
- In the light of the knowledge and understanding of the business and the Group's environment obtained in the course of the audit, we have not identified material misstatements in the consolidated management report.

Other Matter

This report, including the opinion, has been prepared for and only for the Company's members as a body in accordance with Section 69 of Law L.53(I)/2017 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whose knowledge this report may come to.

Puni broj d.o.o. ¹⁾	Croatia	65.45	65.45	65.45
VOX-ZAGREB d.o.o. 2)	Croatia	45.00		

- 1) From a legal perspective, the current shareholding equals to 65.45%. For the reasons explained in Note 31, the Group consolidates an additional shareholding of 1.55% in Super Sport d.o.o. and Puni broj d.o.o.
- 2) On 1 June 2021, the Company acquired shares in VOX-ZAGREB d.o.o. representing 60.00% of its share capital. Right after the acquisition, 15 % of the shares was sold, thus the shareholding decreased to 45.00%. The Company still holds the control, as it holds 60.00% of the voting rights in VOX-ZAGREB d.o.o. For further information refer to section "Acquisition and disposals in 2021" in Note 1.
- 3) On 11 May 2020, SAZKA Group Adriatic d.o.o. was renamed to EMMA GAMMA Adriatic d.o.o.

1. Description of the Group (continued)

Equity-accounted investees	Country of	Own	Ownership interest (%)			
(associates)	incorporation	31.12.2021	31.12.2020	1.1.2020		
Huddle Gaming, Inc. 1)	United States of	23.33	21.88			
	America					
HUDDLE GAMING d.o.o. 2)	Croatia	23.33				
Huddle Gaming Ltd ²⁾	United Kingdom	23.33				
Huddle Gaming IOM Ltd ²⁾	Isle of Man	23.33				

- 1) The ownership interest increased by the reduction of shares. For further information, refer to Note 15.
- 2) In 2021, Huddle Gaming, Inc. founded its three fully-owned subsidiaries: HUDDLE GAMING d.o.o., Huddle Gaming Ltd and Huddle Gaming IOM Ltd.

Acquisitions and disposals in 2021

The following table summarises the recognised amounts of assets acquired and liabilities assumed at the date of acquisition of VOX-ZAGREB d.o.o.:

	Note	TEUR
Property, plant and equipment	8	293
Current income tax assets		36
Loans receivable	11	468
Trade receivables	12	379
Other assets	14	16
Cash and cash equivalents	9	272
Trade payables	19	(386)
Lease liabilities	8,16	(46)
Due to banks and other financial institutions	16	(37)
Total identifiable net assets acquired		995
Non-controlling interest (on fair value of net assets)		(398)
Consideration, paid in cash		(2,566)
Goodwill	7	(1,969)
Cash effect on acquisition		
Consideration, paid in cash		(2,566)
Cash (acquired)		272
Net cash outflow		(2,294)

1. Description of the Group (continued)

Acquisitions and disposals in 2021 (continued)

On 1 June 2021, EMMA GAMMA Adriatic d.o.o. entered into the share purchase agreement with key shareholders of VOX-ZAGREB d.o.o, a company which is located in Zagreb, Croatia and it is part of the Advertising, Public Relations and Related Services Industry. According to the agreement, EMMA GAMMA Adriatic d.o.o. acquired 60.00% of shares in VOX-ZAGREB d.o.o. for the consideration of TEUR 2,566. Acquisition costs related to the purchase of VOX-ZAGREB d.o.o. in an amount of TEUR 38 (including VAT) are included in Service and material expenses in profit or loss. The total amount of TEUR 2,566 was paid in cash, out of which TEUR 527 remained in an escrow account held by an escrow agent and will be released to the sellers after finalization of the 2021 audit. The amount held by escrow agent was subject to the adjustment based on the 2021 financial results of VOX-ZAGREB d.o.o., however, at the time of acquisition it was highly probable, that no adjustment would be applied. Sales revenue and profit of the subsidiary for the year 2021 amounted to TEUR 1,676 and TEUR 326, respectively.

The escrow account related to the acquisition of VOX-ZAGREB d.o.o. at the amount of TEUR 527 was released in the year 2022.

Right after the acquisition, 15.00% of the shares was sold for the selling price of TEUR 527, thus the shareholding decreased to 45.00%. Under the terms of the agreement signed, the 15% shareholder is obliged to use its voting rights in the same manner as EMMA GAMMA Adriatic d.o.o. and therefore, EMMA GAMMA Adriatic d.o.o. still holds the majority of the voting rights and consequently the control over VOX-ZAGREB d.o.o.

VOX is the sport marketing company in Croatia, with excellent market position and midterm contracts with almost all sport unions and major clubs. With the acquisition, the Group gained the sports business know-how, that is utilized in the marketing strategy of Super Sport d.o.o..

Acquisitions and disposals in 2020

On 18 November 2020, the Group entered into a Series A Preferred Stock Purchase Agreement, to acquire 20,000 shares of the Series A Preferred Stock in Huddle Gaming, Inc. with an acquisition price of USD 100 per share. Under the terms of the agreement the total purchase price was TEUR 1,686. Principal activities of Huddle Gaming, Inc. are gaming, software development, product development, and sports betting.

On 30 December 2020, the Group sold 2,500 shares in Huddle Gaming, Inc. to an individual for a selling price of TEUR 211.

The following table provides the detail of the transactions:

	Notes	TEUR
18 November 2020 Purchase of 20,000 shares	15	1,686
30 December 2020		
Sale of 2,500 shares to an individual – carrying value	15	(207)
Consideration, receivable	15	211
Net gain from sale of 2,500 shares in Huddle Gaming, Inc.	15	4

2. Basis of preparation

These consolidated financial statements for the year ended 31 December 2021 comprise the financial statements of the Company and its subsidiaries (together referred to as the "Group") and the Group's interest in associates.

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union (EU) and the requirements of the Cyprus Companies Law, Cap.113 as amended from time to time (further referred to as the "IFRS").

These are the Company's first consolidated financial statements prepared in accordance with IFRSs and IFRS 1 First-time Adoption of IFRSs has been applied. The Group's transition date to IFRSs is 1 January 2020. Previously, the Group prepared Special Purpose Consolidated Financial Statements in accordance with the financial reporting provisions of Section 4.4 of the Security Prospectus Notes dated 10 May 2019 ("the Prospectus"), issued by the Company's subsidiary, EMMA GAMMA Finance a.s. As explicitly stated in the Prospectus, the Company's investment in associate, SAZKA Group a.s, had to be accounted using the cost value method in its consolidated financial statement until its disposal. The associate was disposed of during the year 2019 and therefore the Company, from the year 2021 accounted for investments in associates using equity method. The Group prepared Special Purpose Consolidated Financial Statements in 2020 only due to the fact that the comparative figures were prepared in accordance with the financial reporting provisions of Section 4.4 of the Prospectus as described above in this paragraph.

The Company has also prepared a separate non-consolidated set of financial statements for the year ended 31 December 2021 in accordance with IFRS as adopted by the EU, which was approved on 21 April 2022.

(b) Basis of measurement

These consolidated financial statements have been prepared under the historical cost convention, except in the case of financial instruments at fair value through profit or loss, which are measured at fair value. Financial assets and liabilities and non-financial assets and liabilities which are valued at historical cost are stated at amortised cost or historical cost, as appropriate, net of any relevant impairment.

(c) Presentation and functional currency

The functional currency of the Company is the Euro. The functional currency of the Company's Croatian subsidiaries is the Croatian Kuna and for the Slovak subsidiary is the Euro. These consolidated financial statements are presented in Euro. Financial information has been rounded to the nearest thousand (TEUR).

(d) Use of estimates and judgements

The preparation of the consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses. The estimates and underlying assumptions are based on historical experience and various other factors that are deemed to be reasonable based on knowledge available at that time. Actual results may deviate from such estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the estimate affects only that period, or in the period of the revision and future periods, if the revision affects the present as well as future periods.

In particular, information about significant areas of estimation, uncertainty and critical judgments made by management in preparing the consolidated financial statements in respect of impairment recognition is described in Note 3 (c) (vii) and Note 26.

Information about judgements whether the Group has significant influence over an investee is included in Note 15 "Investment in associate".

2. Basis of preparation (continued)

(d) Use of estimates and judgements (continued)

Information about assumptions and estimation uncertainties at the reporting date that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next reporting period is included in the following notes:

- Note 21 "Deferred tax liability and asset": recognition of deferred tax assets: availability of future taxable profit against which carry forward tax losses can be used.
- Note 30 "Income tax expense": to determine any provision for income taxes.
- Notes 4 and 11 "Loans receivable": measurement of ECL allowance for loans and receivables key assumptions in determining the weighted average loss rate.
- Note 1 "Description of the Group" Acquisition of subsidiaries: fair value measurement.

(e) Basis of consolidation

The Group consolidated financial statements comprise the financial statements of the parent company, EMMA GAMMA LIMITED, and the financial statements of its subsidiaries as stated in Note 1. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

(i) Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The financial statements of subsidiaries acquired or disposed of during the year are included in the Consolidated Statement of Profit or Loss and Other Comprehensive Income from the date on which control effectively commences until the date on which control effectively ceases.

Legal restructuring and mergers involving companies under common control are accounted for using consolidated net book values, consequently no adjustment is made to carrying amounts in the consolidated accounts and no goodwill arises on such transactions.

(ii) Associates

Associates are enterprises in which the Group has significant influence, but not control, over the financial and operating policies. The consolidated financial statements include the Group's share of the total recognised gains and losses of associates on an equity accounted basis, from the date on which significant influence effectively commences until the date on which significant influence effectively ceases. Under equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. When the Group's share of losses exceeds the Group's interest in the associate, that interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred obligations in respect of the associate.

(iii) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised gains or losses arising from intra-group transactions, are eliminated in the consolidated financial statements. Unrealised gains arising from transactions with associates are eliminated against the investment in the associate to the extent of the Group's interest in the enterprise. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

2. Basis of preparation (continued)

(iv) Changes in the Company's ownership interests in existing subsidiaries

Changes in the Company's ownership interests in subsidiaries that do not result in the Company losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Company's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries.

Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Company loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. When assets of the subsidiary are carried at revalued amounts or fair values and the related cumulative gain or loss has been recognised in other comprehensive income and accumulated in equity, the amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the Company had directly disposed of the relevant assets (i.e. reclassified to profit or loss or transferred directly to retained earnings as specified by applicable IFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9 Financial Instruments: Recognition and Measurement or, when applicable, the cost on initial recognition of an investment in an associate or a jointly controlled entity.

(v) Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Company, liabilities incurred by the Company to the former owners of the acquiree and the equity interests issued by the Company in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities are recognised and measured in accordance with IAS 12 Income Taxes; and
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a gain on bargain purchase.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another IFRS.

2. Basis of preparation (continued)

(v) Business combinations (continued)

When the consideration transferred by the Company in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates in accordance with IFRS 9, or IAS 37 Provisions, Contingent Liabilities and Contingent Assets, as appropriate, with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Company's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Company obtains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements and in stating the financial position of the Group. The accounting policies have been consistently applied by all Group entities.

(a) Foreign currency

(i) Foreign currency transactions

A foreign currency transaction is a transaction that is denominated in or requires settlement in a currency other than the functional currency. The functional currency is the currency of the primary economic environment in which an entity operates. For initial recognition purposes, a foreign currency transaction is translated into the functional currency using the foreign currency exchange rate ruling at the date of the transaction. The exchange rate as published by the European Central Bank is used.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate ruling at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate ruling at the date on which the fair value was determined. Non-monetary assets and liabilities denominated in foreign currencies that are measured in terms of historical cost are retranslated using the exchange rate ruling at the date of the transaction.

Foreign currency differences arising on retranslation are recognised in profit or loss, except for the differences arising on the retranslation of equity investments designed at FVOCI which are recognised in other comprehensive income (except on impairment in which case foreign currency differences that have been recognised in other comprehensive income are reclassified to profit or loss).

(a) Foreign currency (continued)

(ii) Financial information of foreign operations

Assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to EUR at exchange rates ruling at the reporting date. Income and expenses of foreign operations, excluding foreign operations in hyperinflationary economies, are translated to EUR at rates approximating the foreign exchange rates ruling at the dates of the transactions.

Foreign currency differences arising on translation are recognised in other comprehensive income, and presented in the foreign currency translation reserve in equity. However, if the foreign operation is a non-wholly owned subsidiary, the relevant proportion of the translation difference is allocated to non-controlling interests.

When a foreign operation is disposed of so that control, significant influence or joint control is lost, the cumulative amount in the foreign currency translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal.

(b) Cash and cash equivalents

The Group considers cash in hand, unrestricted balances with banks and other financial institutions due within one month to be cash and cash equivalents.

(c) Financial assets and liabilities

(i) Classification

On initial recognition, a financial asset, included promissory notes, are classified as measured at: amortised cost; debt investments measured as fair value through other comprehensive income (FVOCI), equity investments measured as FVOCI; or financial assets measured as fair value through profit and loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows;
 and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised costs or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

(c) Financial assets and liabilities (continued)

(i) Classification (continued)

Financial assets - Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial asset to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the asset;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for its purpose, consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets - Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of the time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs) as well as profit margin.

In assessment whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing of amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent which this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

(c) Financial assets and liabilities (continued)

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for trading, it is a derivative or it is designed as such on initial recognition.

(ii) Recognition

Trade receivables and debt securities issued are initially recognised in the statement of financial position when they are originated. All other financial assets and liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(iii) Measurement

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest rate method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Debt instruments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest rate method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI are subsequently measured at fair value. Dividend are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

(iv) Fair value measurement

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.

Level 2: Valuation techniques based on observable inputs, either directly (such as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

(c) Financial assets and liabilities (continued)

(iv) Fair value measurement (continued)

Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments the Group determines fair values using valuation techniques.

Valuation techniques include net present value and comparison to similar instruments for which market observable prices exist. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads and other parameters used in estimating discount rates, bond and equity prices, foreign currency exchange rates, equity and equity index prices and expected price volatilities and correlations. The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the reporting date that would have been determined by market participants acting at arm's length.

(v) Amortised cost measurement principles

The amortised cost of a financial asset or liability is the amount in which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest rate method of any difference between the initial amount recognised and the maturity amount, net of any relevant impairment.

(vi) Gains and losses on subsequent measurement

Gains and losses on financial instruments classified as at fair value through profit or loss are recognised in profit or loss.

Gains and losses on FVOCI financial assets are recognised in other comprehensive income (including for impairment losses but except foreign exchange gains and losses) until the asset is derecognised, at which time the cumulative gain or loss previously recognised in other comprehensive income is reclassified to profit or loss.

For financial assets and liabilities carried at amortised cost, a gain or loss is recognised in profit or loss when the financial asset or liability is derecognised or impaired, and through the amortization process.

(c) Financial assets and liabilities (continued)

(vii) Identification and measurement of impairment

The Group has developed a provisioning policy, which describes in detail the procedures and methodology of the impairment measurement, and a write-off policy. The impairment measurement is dealt with as follows:

The Group uses for the recognition and measurement of impairment losses of financial assets measured at amortised costs and debt investments measured at FVOCI the "expected credit loss" model (ECLs).

The Group measures loss allowance at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities and provided loans that are determined to have low credit risk at the reporting date; and
- other debt securities, provided loans and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to the lifetime ECLs.

The Group assesses on a regular basis whether there is objective evidence that financial assets carried at amortised costs and debt securities at FVOCI are credit impaired. Financial assets are credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

The Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of credit impairment exists for an individually assessed financial assets, whether significant or not, it includes the assets in a group of financial assets with similar risk characteristics and collectively assesses them for credit impairment. Financial assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

A significant increase in credit risk (SICR) represents a significant increase in the risk of default in respect of a financial assets as at the reporting date compared with the risk as at the date of initial recognition. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

(c) Financial assets and liabilities (continued)

(vii) Identification and measurement of impairment (continued)

The Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the trade or other receivable is more than 90 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

In some cases the observable data required to estimate the amount of an impairment loss on a financial asset may be limited or no longer fully relevant to current circumstances. This may be the case when a borrower is in financial difficulties and there is little available historical data relating to similar borrowers. In such cases, the Group uses its experience and judgement to estimate the amount of any credit impairment loss.

All impairment losses in respect of financial assets are recognised in profit or loss and are only reversed if a subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount of the asset that would have been determined, net of amortisation, if no impairment loss had been recognised.

(viii) Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Group also derecognised a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

(ix) Offsetting

Financial assets and liabilities are off set and the net amount presented in the statement of financial position when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by the accounting standards, or for gains and losses arising from a group of similar transactions.

(d) Intangible assets

Goodwill and gain on bargain purchase

Goodwill arising on an acquisition represents the excess of the cost of the acquisition over the Group's interest in the fair value of the net identifiable assets and liabilities of the acquiree. When the excess is negative (gain on a bargain purchase), it is recognised immediately in profit and loss. Goodwill is stated at cost less accumulated impairment losses (refer to Note 7).

In respect of associates, the carrying amount of any goodwill is included in the carrying amount of the investment in the associate.

Trademark

Trademark is considered as intangible asset having an indefinite useful life and is measured at cost less accumulated impairment losses.

Software and other intangible assets

Software and other intangible assets that have finite useful lives are measured at cost less accumulated amortization and accumulated impairment losses.

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value. Amortisation is recognised in profit or loss on a straight line basis over their estimated useful lives (1 - 3 years), from the date that they are available for use. Amortisation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

(e) Property, plant and equipment

The property, plant and equipment are recorded at cost less accumulated depreciation and accumulated impairment losses.

The cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the income statement during the financial period in which they are incurred.

Gains and losses on disposal of an item of property and equipment are determined by comparing the proceeds from disposal with the carrying amount of property and equipment and are recognised in profit or loss.

Depreciation on assets is calculated using the straight-line method to allocate their cost less their residual values over their estimated economic useful lives, as follows:

	<u>r ears</u>
Other tangible assets	1 - 16
Vehicles	3 - 8
Land and buildings	5 - 50

The items of property, plant and equipment acquired under finance leases are depreciated over the shorter of the useful life of the asset or the lease term. Land is not depreciated.

(e) Property, plant and equipment (continued)

Items of property, plant and equipment are depreciated from the date that they are installed and are ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use.

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The depreciation and impairment losses are charged to profit or loss.

(f) Leases – the entity acting as a lessee

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration.

The Entity acting as a lessee recognises a right-of-use asset and the related lease liability in the balance sheet with exceptions where:

- the lease term does not exceed 12 months or;
- the underlying asset has a low value.

Right-of-use asset

At the commencement date, a right-of-use asset is measured at cost which comprises:

- the amount of the initial measurement of the lease liability,
- any lease payments made at or before the commencement date, less any lease incentives received,
- any initial direct costs incurred by the lessee,
- an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset.

A right-of-use asset is recognised in the statement of financial position in line Property, plant and equipment and is depreciated over the shorter of economic useful life of the underlying asset or the lease term. The related depreciation is recognised in the profit or loss in line Other operating expenses.

Lease liability

At the commencement date, a lease liability is initially measured at the present value of the lease payments which that are not paid at that date. The lease payments are discounted using an interest rate which a lessee would have to pay, if a lessee borrowed cash to acquire the underlying asset taking into consideration the terms relating to a lease (i.e. lease/loan term, amount of loans, etc.).

Subsequently, the lease liability is remeasured when there is change in future lease payment (e.g. due to a change in an assessment whether and when it will exercise extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in the income statement if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is recognised in the statement of financial position and presented in line Lease liabilities.

Interest expense on lease liability are recognised in profit or loss and presented in line Finance expense using the effective interest rate.

(g) Impairment for non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than investment property, inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash Generating Units (CGUs). Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(h) Trade receivables

Trade receivables are recognised initially at fair value and are subsequently measured at amortised cost using the effective interest rate method. Trade and other receivables are stated after deducting the appropriate allowances for any impairment.

Adjustments are made for impairment when there is evidence that the Company will not be able to collect receivables originally agreed maturity.

Special financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, failure to pay on time or delays in payments (more than 60 days maturity) are considered indicators of impairment claims. Also, it is a provision for doubtful debts total values older than 180 days. The carrying amount of the asset is reduced through an allowance account and the amount of the loss is recognised in profit or loss.

Uncollectible accounts receivable are recorded as expenses when they are identified.

The impairment loss related to a receivable is reversed if the subsequent increase in recoverable amount can be related to an event occurring after the impairment loss was recognised.

(i) Equity

i. Share capital

Share capital represents the nominal value of shares issued by the Company. To the extent such shares remain unpaid as of the end of the reporting period a corresponding receivable is presented in other assets.

ii. Dividends

Dividends on share capital are recognised as a liability provided they are declared before the end of the reporting period. Dividends declared after the end of the reporting period are not recognised as a liability but are disclosed in the notes.

iii. Non-controlling interests

Non-controlling interests consist of the minority shareholders' proportion of the fair values of a subsidiary's net assets, at the date of the original combination, plus or minus their share of changes in the subsidiary's equity since that date.

For the anticipated changes in non-controlling interests, the present-access method is used. Under the present-access method, the non-controlling interest that is subject to anticipated changes is not derecognised when the financial liability is recognised. Instead, the initial recognition of the liability is recorded against Other reserves within equity attributable to the owners of the Company. This is because the non-controlling interests have present access to the returns that are the subject of the anticipated changes.

iv. Translation reserves

The translation reserves include exchange differences relating to the translation of the results and net assets of the Group's foreign operations from functional to the Group's presentation currency. Exchange differences previously accumulated in the translation reserves are reclassified to profit or loss on the disposal of the foreign assets and operations.

v. Capital reserve

The Capital reserve represents other capital contributions by shareholders of the Company out of the share capital (without issue of new shares).

(j) Other payables

Accounts payable arise when the Group has a contractual obligation to deliver cash or another financial asset. Accounts payable are measured at amortised cost, which is normally equal to their nominal or repayment value.

(k) Revenue

In accordance with IFRS 15, the Group applies a five-step model to determine when to recognise revenue, and at what amount. The model specifies that revenue should be recognised when (or as) the Group transfers control of goods or services to a customer at the amount to which the entity expects to be entitled. Depending on whether certain criteria are met, revenue is recognised:

- over time, in a manner that depicts the entity's performance; or
- at a point in time, when control of the goods or services is transferred to the customer.

IFRS 15 also establishes the principles that an entity shall apply to provide qualitative and quantitative disclosures which provide useful information to users of financial statements about the nature, amount, timing, and uncertainty of revenue and cash flows arising from a contract with a customer.

The Clarifications to IFRS 15 clarify some of the Standard's requirements and provide additional transitional relief for companies that are implementing the new Standard.

(k) Revenue (continued)

The amendments clarify how to:

- identify a performance obligation the promise to transfer a good or a service to a customer in a contract;
- determine whether a company is a principal (the provider of a good or service) or an agent (responsible for arranging for the good or service to be provided); and
- determine whether the revenue from granting a license should be recognised at a point in time or over time.

The amendments also provide entities with two additional practical expedients:

- An entity need not restate contracts that are completed contracts at the beginning of the earliest period presented (for entities that using the full retrospective method only);
- For contracts that were modified before the beginning of the earliest period presented, an entity need not retrospectively restate the contract but shall instead reflect the aggregate effect of all of the modifications that occur before the beginning of the earliest period presented (also for entities recognising the cumulative effect of initially applying the standard at the date of initial application).

Revenues from betting activities and casino games

Revenues from betting activities represent amounts staked by the customers less betting payouts and betting taxes payable to the state. The amount paid by customers is deducted by 5% (transaction cost) and only remaining 95% of ticket amount is used to calculate the potential winning. Revenue is recognised when the result of the performance obligation is known, i.e. immediately after the bet event result occurs ("at a point in time").

Revenues from casino games represent net wins in respect of bets placed on casino games less gaming tax and amounts accrued for prize pools. Revenues from the online poker business reflect the net income (rake) earned from poker games completed by the year end. Revenue is recognised when the result of the performance obligation is known, i.e. immediately after the game result occurs ("at a point in time").

(l) Interest income and expense

Interest income and expense are recognised in the Statement of Profit or Loss and Other Comprehensive Income using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability. The effective interest rate is established on initial recognition and is not revised subsequently.

The calculation of the effective interest rate includes all fees and points paid or received, transaction costs and discounts or premiums that are an integral part of the effective interest rate. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability.

(m) Fee and commission income and expenses

Fees and commission income and expenses that are integral to the effective interest rate on a financial asset or liability are included in the measurement of the effective interest rate.

Other fees and commission income and expense relate mainly to transaction and service fees, which are recognised as the services are rendered or received.

(n) Taxation

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the Statement of Profit or loss and Other Comprehensive Income except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit and temporary differences related to investments in subsidiaries, branches and associates where the parent is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the end of the reporting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary differences, unused tax losses and credits can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(o) Adoption of new and revised IFRS and Interpretations as adopted by the EU

The following Standards, Amendments to Standards and Interpretations have been issued by International Accounting Standards Board ("IASB") but are not yet effective for annual periods beginning on 1 January 2021. Those which may be relevant to the Group are set out below. The Group plans to introduce these provisions when they become effective.

(o) Adoption of new and revised IFRS and Interpretations as adopted by the EU (continued)

(i) Standards and Interpretations adopted by the EU effective for annual periods beginning on or after 1 January 2021

Amendments to IFRS 9, IAS 39 and IFRS 7, IFRS 4 and IFRS 16: "Interest Rate Benchmark Reform Phase 2" (applicable for annual periods beginning on or after 1 January 2021)

Interest Rate Benchmark Reform Phase 2 addresses issues that might affect financial reporting during the reform of interest rate benchmark, including the effects of changes to contractual cash flow or hedging relationship arising from the replacement of an interest rate benchmark with an alternative benchmark rate (replacement issues).

The objectives of the Phase 2 amendments are to assist companies in:

- applying IFRS Standards when changes are made to contractual cash flows or hedging relationships because of the interest rate benchmark reform; and
- providing useful information to users of financial statements

Amendments to IAS 1 Presentation of Financial Statements: Classification of Liabilities as Current or Noncurrent (applicable for annual periods beginning on or after 1 January 2023)

The amendments clarify that the classification of liabilities as current or non-current shall be based solely on the entity's right to defer settlement at the end of the reporting period. The entity's right to defer settlement for at least 12 months from the reporting date need not be unconditional but must have substance. The classification is not affected by management's intentions or expectations about whether and when the Entity will exercise its right. The amendments also clarify the situations that are considered settlement of a liability.

Amendments to IAS 16 Property, Plant and Equipment: Proceeds before Intended Use (applicable for annual periods beginning on or after 1 January 2022)

The amendments to IAS 16 require that the proceeds from selling items produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended must be recognised, together with the cost of those items, in profit or loss and that the entity must measure the cost of those items applying the measurement requirements of IAS 2.

Amendments to IAS 37 Provisions, Contingent Liabilities and Contingent Assets: Onerous Contracts - Cost of Fulfilling a Contract (applicable for annual periods beginning on or after 1 January 2022)

In determining costs of fulfilling a contract, the amendments require an entity to include all costs that relate directly to a contract. Paragraph 68A clarifies that the cost of fulfilling a contract comprises both: the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling contracts.

(o) Adoption of new and revised IFRS and Interpretations as adopted by the EU (continued)

(i) Standards and Interpretations adopted by the EU effective for annual periods beginning on or after 1 January 2021 (continued)

<u>Amendments to IAS 8 – Definition of Accounting Estimate (applicable for annual periods beginning on or after 1 January 2023);</u>

Based on the amendment, the definition of a change in accounting estimates is replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty".

Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.

The Board clarifies that a change in accounting estimate that results from new information or new developments is not the correction of an error. In addition, the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.

A change in an accounting estimate may affect only the current period's profit or loss, or the profit or loss of both the current period and future periods. The effect of the change relating to the current period is recognised as income or expense in the current period. The effect, if any, on future periods is recognised as income or expense in those future periods.

Amendments to IAS 1 and IFRS Practice Statement 2 (applicable for the annual periods beginning on or after 1 January 2023);

Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) amends IAS 1 in the following ways:

- An entity is now required to disclose its material accounting policy information instead of its significant accounting policies;
- several paragraphs are added to explain how an entity can identify material accounting policy information and to give examples of when accounting policy information is likely to be material;
- the amendments clarify that accounting policy information may be material because of its nature, even if the related amounts are immaterial;
- the amendments clarify that accounting policy information is material if users of an entity's financial statements would need it to understand other material information in the financial statements; and
- the amendments clarify that if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information.
- In addition, IFRS Practice Statement 2 has been amended by adding guidance and examples to explain and demonstrate the application of the 'four-step materiality process' to accounting policy information in order to support the amendments to IAS 1.

<u>Amendments to IFRS 3 – Reference not the Conceptual Framework (applicable for annual periods beginning on or after 1 January 2022)</u>

The changes in the Amendments to IFRS 3 Reference to the Conceptual Framework:

- update IFRS 3 so that it refers to the 2018 Conceptual Framework instead of the 1989 Framework;
- add to IFRS 3 a requirement that, for transactions and other events within the scope of IAS 37 or IFRIC 21, an acquirer applies IAS 37 or IFRIC 21 (instead of the Conceptual Framework) to identify the liabilities it has assumed in a business combination; and
- add to IFRS 3 an explicit statement that an acquirer does not recognise contingent assets acquired in a business combination.

(o) Adoption of new and revised IFRS and Interpretations as adopted by the EU (continued)

(i) Standards and Interpretations adopted by the EU effective for annual periods beginning on or after 1 January 2021 (continued)

Annual Improvements to IFRS Standards 2018–2020 (applicable for annual periods beginning on or after 1 January 2022)

Amendment to IFRS 9 Financial Instruments

The improvements clarify that, when assessing whether an exchange of debt instruments between an existing borrower and lender are on terms that are substantially different, the fees to include together with the discounted present value of the cash flows under the new terms include only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.

Amendment to Illustrative Examples accompanying IFRS 16 Leases

The improvements remove from illustrative Example 13 accompanying IFRS 16 reference to a reimbursement by the lessor to the lessee for leasehold improvements as well as an explanation of a lessee's accounting for such reimbursement.

(ii) Standards and Interpretations not adopted by the EU

Amendments to IFRS 10 and IAS 28 Sale or contribution of assets between an Investor and its Associate or Joint venture (effective date deferred indefinitely/Available for optional adoption in full IFRS financial statements).

IFRS 10 (Amendments) and IAS 28 (Amendments) "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture" (effective date postponed indefinitely).

The amendments address an acknowledged inconsistency between the requirements in IFRS 10 and those in IAS 28, in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognised when a transaction involves a business (as defined in IFRS 3). A partial gain or loss is recognised when a transaction involves assets that do not constitute a business. In December 2015, the IASB postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting.

The Group does not expect that the Interpretation, when initially applied, will have material impact on the consolidated financial statements for the Group.

4. Financial risk management

The risk management function within the Group is carried out in respect of financial risks (credit, market and liquidity risk), operational risks and legal risks. The primary objectives of the financial risk management function are to establish risk limits, and then ensure that exposure to risks stays within these limits. The operational and legal risk management functions are intended to ensure proper functioning of internal policies and procedures to minimise operational and legal risks.

The Group has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk
- operational risk
- legal risk

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework and are responsible for developing and monitoring risk management policies in their specified areas.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions, products and services offered. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

Risks related to pandemic COVID 19

Despite the fact, that the main impact resulting from COVID 19 has influenced the Group during the year 2020, there was still certain continuing impact in the year 2021. The Group adopted a series of measures described below, however, the importance of the risks related to COVID 19 seems to be decreasing over time.

Risks related to business operations, results and liquidity:

- Regarding potential Government preventive measures, such as complete lock-down of some of the premises in the countries where the Group operates, and general macroeconomic projections, there is a risk of a general decrease in the revenues from all sales channels;
- The Group was facing the limited number of sport events in March, April and May 2020, what has influenced its 2020 results. The risk of a decline in certain revenues, such as revenue from sport betting activities, continues to exist, however after the first wave the sports environment become adapted to the new situation what significantly limited this type of risk;
- The Group is prepared to apply certain measures in respect of operating expenses should the government preventive measures be implemented again;
- The Group is also monitoring the covenants related to the bonds issued by the Company and through effective cash management at the Group level, can ensure that the covenants are met.

Risks related to pandemic COVID 19 (continued)

Risk related to operational activities:

- To manage operational risk, the Group follows the business continuity protocols. The Group continues to run the operations using remote access where applicable and taking measures to protect the health of the employees working on-site;
- The Group regularly communicates with its business partners, who have also implemented the necessary measures while providing contractual services without currently identified limitations;
- The Group's operational safeguards mainly includes ensuring its operations within maximised restriction of the occurrence of employees in the workplace;
- The Company and the Group have identified its key processes that would be prioritised in the event of
 limited options, but at the time of preparation of these financial statements, the Company and the Group
 have not identified any significant constraints and expects to be able to continue to operate in the long
 term.

The Company and the Group have analysed all the risks and severe but plausible scenarios and concluded that there is no material uncertainty related to going concern.

Risks related to Ukraine crisis

After the reporting date, Russia invaded Ukraine on 24 February 2022. Based on currently available information and based on our analysis carried out, we do not expect significant direct impact of the war conflict on the Group, its business operations, its financial position, results and liquidity. However, it is extremely difficult to predict impact of the war conflict in the long-term perspective. Therefore, the Group monitors the situation carefully and is prepared to adopt the necessary measures for mitigation of potential risks. Refer also to Note 32, for further details.

Credit risk

Credit risk is the risk of financial loss occurring as a result of default by a borrower or counterparty on their obligation to the Group. The majority of the Group's exposure to credit risk arises in connection with the provided loans and financial assets which is the Group's principal business. The remaining part of the Group's exposures to credit risk is related to due from banks and other financial institutions, financial assets available-for-sale and other assets.

Credit risk results from business transactions (receivables from counterparties) and from the transactions in financial markets (money market, currency exchange, derivatives transactions, etc.). Several criteria are applied when assessing the level of credit risk.

Credit terms for individual transactions are assessed by the Group's specialists, including middle and top management of the Group. Experts from both law firms and financial institutions were also consulted on the risks related to the transactions. Publicly available information and information from external agencies were used for ongoing monitoring of the credit quality of the counterparties.

The receivables are divided by counterparties and are allocated to the responsible person overseeing each case. The counterparties are allocated to category classes based on allocation criteria such that the first class included low risk counterparties and the third class included higher risk counterparties.

The Group has a credit limit policy including new credit terms and credit limits. The Group has continued in a process of monitoring counterparties and their payment morale on regular basis.

The Group also continuously monitors the performance of individual credit exposures using a number of criteria.

The Group has an active fraud prevention and detection program. Credit risk developments are reported by the Group Credit Risk Department to the Board of Directors on a regular basis.

As a result of recent negative development on financial markets, the credit environment in certain countries in which the Group operates has deteriorated. The Group has taken strict measures in its underwriting and collection policies in order to limit the negative impact of such market changes.

Credit risk (continued)

Exposure to credit risk

The Group has provided loans in the amount of TEUR 327 (2020: TEUR 10,083; 1.1.2020: 21,237). The tables below provide a detailed analysis of the Group's exposure to credit risk.

	Loa	Loans - Due from non-banks			Loans - Due from banks and other financial institutions		
	2021	2020	1.1.2020	2021	2020	1.1. 2020	
	TEUR	TEUR	TEUR	TEUR	TEUR	TEUR	
Neither past due nor credit impaired – carrying amount – Stage I	327	10,070	21,237				
Credit impaired – carrying amount – Stage III		13					
Total carrying	327	10,083	21,237				

Credit quality of financial assets

The credit quality of financials assets that are neither past due nor impaired can be assessed by reference to external credit ratings of Moody's (if applicable):

	31.12.2021	31.12.2020	1.1.2020
	TEUR	TEUR	TEUR
Cash at bank and short-term bank deposits			
Baa3			7,885
Baa2	1,895	6,251	
Non-rated	45,732	74,413	44,174
Total	47,627	80,664	52,059

Classification of financial assets by credit risk

The following table presents an analysis of the credit quality of provided loans at amortised cost. It indicates whether assets measured at amortised cost were subject to a 12-month ECL or lifetime ECL allowance and if they were credit-impaired.

31.12.2021	12-month ECL	Lifetime ECL not credit- impaired	Lifetime ECL credit- impaired	Total
	(Stage I)	(Stage II)	(Stage III)	
Provided loans	TEUR	TEUR	TEUR	TEUR
Gross provided loans	365		162	527
Loss allowances	(38)		(162)	(200)
Net provided loans	327			327

4. Financial risk management (continued) Credit risk (continued)

31.12.2020	12-month ECL	Lifetime ECL not credit- impaired	Lifetime ECL credit- impaired	Total
	(Stage I)	(Stage II)	(Stage III)	
Provided loans	TEUR	TEUR	TEUR	TEUR
Gross provided loans	10,107		309	10,416
Loss allowances	(37)		(296)	(333)
Net provided loans	10,070		13	10,083
1.1.2020	12-month ECL	Lifetime ECL not credit- impaired	Lifetime ECL credit- impaired	Total
1.1.2020		ECL not credit-	ECL credit-	Total
1.1.2020 Provided loans	ECL	ECL not credit-impaired	ECL credit- impaired	Total TEUR
	ECL (Stage I)	ECL not credit- impaired (Stage II)	ECL credit- impaired (Stage III)	
Provided loans	ECL (Stage I) TEUR	ECL not credit- impaired (Stage II) TEUR	ECL credit- impaired (Stage III) TEUR	TEUR

The following table presents an analysis of the credit quality of other financial assets at amortised cost (deposits and promissory notes). It indicates whether assets measured at amortised cost were subject to a 12-month ECL or lifetime ECL allowance and if they were credit-impaired.

31.12.2021	12-month ECL	Lifetime ECL not credit- impaired	Lifetime ECL credit- impaired	Total
	(Stage I)	(Stage II)	(Stage III)	
Financial assets at amortised cost	TEUR	TEUR	TEUR	TEUR
Gross deposits	1,122			1,122
Loss allowances				
Net financial assets at amortised cost	1,122			1,122

The Group measures loss allowance to financial assets at an amount equal to lifetime ECLs or 12-month ECLs, as described in Note 3 (c) (vii). Loss allowances to trade and other receivables are calculated based on the following principles:

- 180-360 days after due date: 50% impairment loss;
- more than 360 days after due date: 100% impairment loss.

For additional information about the Group's accounting policies relating to financial instruments in accordance with IFRS 9 refer to Note 3(c).

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations from its financial liabilities. Liquidity risk is managed by ensuring that there are sufficient financial resources to meet the obligations associated with financial liabilities. Cautious liquidity risk management assumes maintenance of a sufficient amount of cash and the availability of required external financing in terms of loans and borrowings.

The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group's finance department collects information regarding the liquidity profile of the financial assets and liabilities and details of other projected cash flows arising from projected future business. Portfolio of short-term liquid assets is maintained to ensure sufficient liquidity. The daily liquidity position is monitored and regular liquidity stress testing is conducted under a variety of scenarios covering both normal and more severe market conditions.

In order to monitor the current trends in liquidity and to manage other associated risks (exchange rate risk, interest rate risk, foreign exchange risk, payment conditions, tax legislation, etc.), a meeting is held on a monthly basis in attendance with representatives of the Finance Department and with specialists and managers from other departments, if needed. In regular meetings, the Finance Director then reports to the Group management on the liquidity status and its developments. When the amount payable is not fixed, the amount disclosed is determined by reference to the conditions existing as at the reporting date. Foreign currency payments are translated using the spot exchange rate as at the balance sheet date.

Liquidity risk (continued)

Contractual maturity analysis

The following table shows financial assets and liabilities by remaining maturity dates.

31.12.2021

TEUR	Less than 3 months	3 months to 1 year	1 to 5 years	More than 5 years	No maturity	Total
Cash and cash equivalents	49,588					49,588

^{*}Other liabilities include only financial items, such as accrued expenses and other liabilities. For the detail of other liabilities, see Note 20.

The cumulative negative Net Position with maturity shorter than 1 year relates mainly to the amount payable of TEUR 182,111 to the non-controlling shareholder of Super Sport d.o.o. in relation to the future acquisition of the remaining 33% in Super Sport d.o.o. by the Group, (refer also to Note 32).

In March 2022, the Group entered into a new bank loan agreement for the total facility amount of TEUR 230,000 for the purpose of financing the liability to the non-controlling shareholder as well to refinance the existing bank financing.

Market risk

Market risk is the risk that changes in market prices, such as interest rates or foreign exchange rates will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters.

The majority of the Group's exposure to market risk arises in connection with the funding of the Group's operations with liabilities denominated in foreign currencies and to the extent the term structure of interest bearing assets differs from that of liabilities.

Market risk includes currency risk and interest rate risk. Management's objectives are to use natural hedging only. The borrowings are secured by the majority of the Group's receivables.

Interest rate risk

The principal risk to which the Group is exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instruments because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps. As part of its management of this position, the Group may use interest rate derivatives.

A fundamental reform of major interest rate benchmarks is being undertaken globally, including the replacement of some interbank offered rates (IBORs) with alternative nearly risk-free rates (referred to as 'IBOR reform'). The Group has no significant exposures to IBORs on its financial instruments that will be replaced or reformed as part of these market-wide initiatives.

The management of interest rate risk against interest rate gap limits is supplemented by monitoring the sensitivity of the Group's financial assets and liabilities to various standard and non-standard interest rate scenarios.

Foreign currency risk

The Group has assets and liabilities denominated in several foreign currencies. It has invested into gaming business primarily denominated in EUR and HRK.

Foreign currency risk arises when the actual or forecast assets in a foreign currency are either greater or less than the liabilities in that currency. Foreign currency risk is managed principally through monitoring foreign currency mismatches in the structure of assets and liabilities in the individual Group's country operations.

Foreign currency risk (continued)

Net investments in foreign operations are not hedged. As a result, the Group's financial position is adequately sensitive on movements of the relevant foreign exchange rates. Impact of such exchange rate changes on the Group's net investment in foreign operations is presented as currency translation in the consolidated statement of changes in equity.

Foreign currency risk sensitivity analysis

An analysis of sensitivity of the Group's equity to changes in currency exchange rates based on positions existing as at 31 December 2021, 31 December 2020 and 1 January 2020 and a simplified scenario of a 5% change in HRK to EUR exchange rates is shown below:

	Total effect on	Total effect on	Total effect on
	equity	equity	equity
	31.12.2021	31.12.2020	1.1.2020
	TEUR	TEUR	TEUR
Effect of 5% HRK depreciation against EUR	10,203	2,008	2,245
Effect of 5% HRK appreciation against EUR	(10,203)	(2,008)	(2,245)

Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Group's processes, personnel, technology and infrastructure supporting the activities with financial instruments, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of investment management behavior. Operational risks arise from all of the Group's operations and are faced by all business entities.

The Group's objective is to manage operational risk so as to balance the limiting of financial losses and damage to the Group's reputation with achieving its investment objective of generating returns to investors.

The primary responsibility for the development and implementation of controls over operational risk is assigned to senior management of the Group. This responsibility is supported by the development of standards for the management of operational risk in the following areas:

- requirements for appropriate segregation of duties between various functions, roles and responsibilities;
- requirements for the reconciliation and monitoring of transactions;
- compliance with regulatory and other legal requirements;
- documentation of controls and procedures;
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified;
- development of contingency plans;
- training and professional development;
- ethical and business standards;
- risk mitigation, including insurance where this is effective;

Legal risk

Legal risk is the risk of financial loss, interruption of the Group's operations or any other undesirable situation that arises from the possibility of non-execution or violation of legal contracts and consequentially of lawsuits. The risk is restricted through the contracts used by the Group to execute its operations.

Capital Management

The Company manages its capital to ensure that it will be able to continue as a going concern while increasing the return to owners through strive for improving the debt-to-equity ratio.

5. Operating environment

Volatility in global financial markets

Management believes it is taking all the necessary measures to support the sustainability and growth of the Group's business in the current circumstances.

Operating environment of the Group

The Group's operations are primarily located in Cyprus, Slovakia and Croatia. Consequently, the Group is exposed to these economic and financial markets.

Within the EU, a degree of uncertainty still exists, as certain issues remain to be resolved, such as the high index of non-performing loans and unemployment.

The Group's main source of revenue derives from investments in Croatia and is based on the betting activities and casino games. As a result, the Group's revenue is highly affected from the economic environment in Croatia and the relevant local laws and regulations.

The above could affect, among others, the Group's ability to obtain new loans on favourable terms and conditions or/and its ability to achieve satisfactory turnover.

The Group's management believes that it is taking all the necessary measures to maintain the viability of the Group and the development of its business in the current business and economic environment.

6. Critical accounting estimates and judgements

Fair values of financial instruments

The Group has performed an assessment of fair values of its financial instruments to determine whether it is practicable within the constraints of timeliness and cost to determine their fair values with sufficient reliability.

The fair value of financial instruments traded in active markets, such as publicly traded trading and available-forsale financial assets is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Group is the current bid price.

Financial instruments recorded at fair value are valued as follows: Financial instruments whose fair value is based on quoted market prices (Level 1) or calculated using valuation techniques where all the model inputs are observable in the market, typically interest rates and foreign exchange rates, (Level 2) or calculated using valuation techniques where significant model inputs are not observable in the market (Level 3).

The Group has not recognised any financial assets or liabilities at fair value through OCI in 2021 and 2020.

In 2021, as a result of the acquisition of VOX-ZAGREB d.o.o., the Group recognised goodwill of TEUR 1,969. For more information, refer to changes in the Group in 2021, described in Note 1.

Goodwill totaling TEUR 453,527 consists of TEUR 451,558 recognised as a result of acquisition of the former SAZKA Group Adriatic d.o.o. (renamed to EMMA GAMMA Adriatic d.o.o. in 2020) in 2019 and of TEUR 1,969 recognised as a result of acquisition of VOX-ZAGREB d.o.o. in 2021.

Trademark is treated as having an indefinite useful life, because it is expected to contribute to net cash inflows indefinitely.

The Group carried out the impairment indicators analysis and concluded there were no impairment indicators as at 31 December 2021 and 31 December 2020.

^{*} Transfers in 2020 represent the reclassification of tangible assets to inventories.

8. Property, plant and equipment (continued)

In 2021, acquisitions through business combination of TEUR 293 relate to acquisition of VOX-ZAGREB d.o.o., described in Note 1.

The right-of-use assets are recognised in accordance with IFRS 16 and are mainly represented by leased premises for betting shops in Croatia. During 2021, certain new lease contracts both in EUR and in HRK, were signed for business purposes in Croatia while 8 contracts were terminated due to their expirations. As at 31 December 2021, the Group disclosed lease liabilities related to right-of-use assets for the total amount of TEUR 7,833 (2020: TEUR 7,180; 1.1.2020: TEUR 7,330) (refer to Note 3 (f)). For effective interest rate used and undiscounted cash flows refer to Note 4.

These leases typically run for a period of 1 to 10 years.

Some leases provide for additional rent payments that are based on a development of inflation rate in the following years and some of them are defined in EUR, although payable in HRK.

Some leases contain extension options exercisable by a lessee, typically up to 10 years before the end of lease term. The Group assesses at lease commencement whether it is reasonably certain to exercise the options and subsequently if there is a significant event or significant change in circumstances related to the shop performance.

Short term leases and low value leases recognised as expenses in profit or loss for the year and disclosed in Note 24 "Services and material expenses".

9. Cash and cash equivalents

	31.12.2021	31.12.2020	1.1.2020
	TEUR	TEUR	TEUR
Current accounts	47,627	80,664	52,059
Cash on hand	1,961	220	2,155
	49,588	80,884	54,214

The exposure of the Group to credit risk in relation to cash and cash equivalents is described in Note 4.

10. Financial assets (continued)

Financial assets at amortised cost – promissory notes

As at 31 December 2020, financial assets held-to-maturity were represented by promissory note from KKCG AG related to the sale of SAZKA Group a.s., for the amount of TEUR 30,000. The maturity date of the promissory note was 14 March 2021.

As at 1 January 2020, financial assets held-to-maturity were represented by promissory notes from KKCG AG related to the sale of SAZKA Group a.s., for the amounts of TEUR 30,000 and TEUR 90,000. The maturity dates of the promissory notes were 14 March 2021 and 14 March 2020.

The promissory note for the amount TEUR 90,000 was repaid on 14 March 2020 and the promissory note for the amount TEUR 30,000 was repaid on 14 March 2021.

	2021 TEUR	2020 TEUR
At 1 st January	29,693	117,252
Repayments	(30,000)	(90,000)
Unwinding discount on promissory note (interest income)	303	2,416

Balance at 31st December		29,693
Non-current portion		
Current portion		29,693
Balance at 31st December		29,693

The promissory notes were measured at amortised cost under IFRS 9. Loss allowances were calculated based on a 12-month expected credit loss (ECL). As at 31 December 2021, a reversal of the provision of impairment loss amounting to TEUR 4 was recognized in the consolidated statement of profit or loss and other comprehensive income (2020: TEUR 3 impairment loss; 1.1.2020: TEUR 28 impairment loss).

The promissory notes were pledged to J&T Banka a.s., as a security for the Facility agreement dated 16 December 2015, between J&T Banka a.s. and MEF Holdings Limited. On 9 March 2020 and 11 March 2021, the pledge over the promissory notes was released due to their repayment.

The fair value of financial assets at amortised cost approximates to their carrying amounts as presented above.

Financial assets at fair value through profit or loss

The Group holds derivatives to manage future cash flows from the payments of principal and interest according to the loan agreements (cross currency interest rate swaps and interest rate floor swaps). The derivative instruments are not classified as hedging derivatives.

All outstanding exposure was settled on 31 March 2021 when the derivatives expired.

All financial derivatives were stated at fair value as at 31 December 2021 and 2020 based on price quotation by the bank and categorised to Level 2 in the fair value hierarchy.

Balance at 31st December		257

11. Loans receivable

The Group has provided loans receivable to its related parties of TEUR 85 (2020: TEUR 27; 1.1.2020: TEUR 21,171) and third parties of TEUR 242 (2020: TEUR 10,056; 1.1.2020: TEUR 66). In 2020, a loan provided in amount of TEUR 10,006 is attributable to VALEA GROUP AG. Provided loans are repayable as follows:

31.12.2021	Average interest rate	Less than 3 months	3 months to 1 year	1 to 5 years	Total TEUR
Loans receivable	3.08%		242	85	327 327
31.12.2020	Average interest rate	Less than 3 months	3 months to 1 year	1 to 5 years	Total TEUR
Loans receivable	9.91%	10,006	50	27	10,083
1.1.2020	Average interest rate	Less than 3 months	3 months to 1 year	1 to 5 years	Total TEUR
Loans receivable	4.99%		21,206	31	21,237 21,237

During the year, the Group provided new loans to related parties at the amount of TEUR 80,937 and TEUR 56 to key management personnel (refer also to note 31) and new loans to third parties at the amount of TEUR 40,000. Loans to related companies and to third parties were repaid before the year end.

As at 31 December 2021, 31 December 2020 and 1 January 2020 loans receivables are measured at amortised cost under IFRS 9. Loss allowances were calculated based on a 12-month or a lifetime expected credit loss (ECL). As at 31 December 2021, loss allowances related to loans receivable amounted to TEUR 200 (2020: TEUR 333; 1.1.2020: TEUR 385).

The exposure of the Group to credit risk in relation to loan receivables is described in Note 4.

The fair value of loan receivables approximates to their carrying amounts as presented above.

12. Trade receivables

Trade receivables amounted to TEUR 6,242 as at 31 December 2021 (2020: TEUR 5,004; 1.1.2020: TEUR 3,869).

Trade receivables refer mainly to receivable from credit card transactions performed by the Croatian Companies. As at 31 December 2020, trade and other receivables comprised also receivable resulting from sale of shares in Huddle Gaming, Inc. for consideration of TEUR 211 (refer also to Note 1 Description of the Group – Acquisitions and disposals in 2020).

As at 31 December 2021, 31 December 2020 and 1 January 2020, all trade and other receivables are measured at amortised cost under IFRS 9. Loss allowances were calculated based on a lifetime expected credit loss (ECL). The Group has not recognised a loss for the impairment of its trade and other receivables during the year ended 31 December 2021 and 2020.

The fair value of trade and other receivables approximates to their carrying amounts as presented above.

13. Inventories

As at 31 December 2021, 31 December 2020 and 1 January 2020, inventories are represented by materials and equipment for Croatian branches of TEUR 720 (2020: TEUR 512; 1.1.2020: TEUR 344).

In 2021, an impairment of TEUR 122 (2020: TEUR 0; 1.1.2020: TEUR 0) was recognized.

For further details regarding expenses for raw materials and consumables, please refer to Note 24.

14. Other assets

Other assets are represented by deferred expenses and prepayments of TEUR 2,485 (2020: TEUR 1,989; 1.1.2020: TEUR 2,189), advances provided of TEUR 165 (2020: TEUR 123; 1.1.2020: TEUR 73) and other tax receivables of TEUR 57 (2020: TEUR 201; 1.1.2020: TEUR 54).

Deferred expenses relate mainly to annual fees paid by Croatian Companies for casino games and betting activities.

15. Investment in associate

The Group has the following investment in associate, which was accounted for using the equity method:

	Type of equity method investment	Country of incorporation	Ownership interest		Ca	rrying am	ount	
			2021	(%) 2020	1.1.2020	2021	TEUR 2020	1.1.2020
Huddle Gaming, Inc. *	Associate	United States of America	23.33	21.88		1,009	1,438	

^{*} Including its three fully-owned subsidiaries: HUDDLE GAMING d.o.o., Huddle Gaming Ltd and Huddle Gaming IOM Ltd (refer also to Note 1. Description of the Group).

On 18 November 2020, the Group entered into a Series A Preferred Stock Purchase Agreement, to acquire 20,000 shares of the Series A Preferred Stock in Huddle Gaming, Inc with acquisition price as USD 100 per share. Under the terms of the agreement total purchase price was TEUR 1,686.

On 30 December 2020, the Group sold 2,500 shares in Huddle Gaming, Inc to an individual for a sales price of TEUR 211, realizing a profit from disposal of TEUR 4 (for further information refer to Note 1 Description of the Group – Acquisitions and disposals in 2020).

Huddle Gaming, Inc is an IT company active in software development.

The ownership interest in Huddle Gaming, Inc. was increased to 23.33 % in March 2021 due to the changes in investment structure (decrease in the total number of shares).

	2021 TEUR	2020 TEUR
Net gain from sale of investments in associates		4
Associates – share of loss*	(465)	(19)

Bank loan E	3.68%	HRK					2023	21,312
				68,293		79,951		84,520

In March 2020, the whole amount of syndicated bank loans (loans D and E) was re-financed by new secured bank loans (loans A and B) with final maturity in 2025. Bank loans A and B are secured by the shareholding in Super Sport d.o.o., liens on bank accounts and deposits and by corporate guarantee. Bank loan C is unsecured bank loan. Current part of bank loans payable within 1 year amounts to TEUR 12,263 (2020: TEUR 12,530; 1.1.2020: TEUR 14,260).

Information about the Group's exposure to interest rate, foreign currency and liquidity risks is included in Note 4. The fair value of liabilities due to banks and other financial institutions approximates to their carrying amounts as presented above.

Reconciliation of movements of liabilities

Reconciliation of movements of liabilities to cash flows arising from financing activities in 2021 and 2020 is described below.

	Loans and borrowings	Lease liabilities	Bonds issued	Total

Current part	392	392	392
Total balance	89,453	89,065	88,677

On 29 May 2019, the Group issued bonds EMG 4.90/2024 (ISIN SK4000015210) in total nominal value of TEUR 90,000. The bonds will mature as at 29 May 2024. Bonds bear fixed interest rate of 4.90% p.a. Bonds were accepted for trading at the Bratislava Stock Exchange.

The interest expense related to bonds issued is TEUR 4,410 in 2021 (2020: TEUR 4,410) and the effective interest expense related to the issue of bonds is TEUR 388 in 2021 (2020: TEUR 388). For further information refer to Note 29.

17. Bonds issued (continued)

The prospectus of the bond sets the maximum values of selected financial indicators (covenants). In the event of persistent non-compliance with these financial indicators, each bondholder has the right to demand early repayment of the bonds held. In this context, the Group monitors the fulfillment of financial indicators in accordance with the determination of prospectus. According to the Prospectus, the Group should maintain the Net Debt Ratio at a level below 4. The Group calculates this ratio twice a year, on 30 June and 31 December of each year based on the consolidated financial information. On 31 December 2021, the Group exceeded the Net debt ratio due to the liability booked in respect to the future acquisition of Super Sport d.o.o. The acquisition of the remaining 33% was made on 4 March 2022 and the liability was settled. As at the date of issue of these consolidated financial statements, the compliance of the covenant was remedied.

Information about the Group's exposure to interest rate, foreign currency and liquidity risks is included in Note 4.

The fair value of bonds issued approximates to their carrying amounts as presented above.

18. Financial liabilities at fair value through profit or loss

The Group held derivatives to manage future cash flows from the payments of principal and interest according to the loan agreements (cross currency interest rate swaps and interest rate floor swaps). The derivative instruments were not classified as hedging derivatives.

All financial derivatives were stated at fair value as at year end based on price quotation by the bank and categorised to Level 2 in the fair value hierarchy.

	Z021 TEUR	TEUR
At 1st January		313
Change in fair value		(313)
Balance at 31st December		

19. Trade payables

The Group's trade payables as of 31 December 2021 amounting to TEUR 2,504 (2020: TEUR 1,248, 1.1.2020: TEUR 1,772) consist mainly of payables related to betting and casino activities of Croatian companies.

Information about the Group's exposure to currency and liquidity risks is included in Note 4.

The fair value of trade and other payables approximates to their carrying amounts as presented above.

20. Other liabilities

	31.12.2021	31.12.2020	1.1.2020
	TEUR	TEUR	TEUR
Accrued expense	62	53	72
Other tax payable	6,455	4,371	4,918
Wages and salaries	1,450	993	1,078
Social security and health insurance	481	450	405
Deferred income	4		
Other liabilities	192,351	2,764	2,103
	200,803	8,631	8,576

20. Other liabilities (continued)

As at 31 December 2021, the Group disclosed the financial liability resulting from transaction with non-controlling shareholder of Super Sport d.o.o. in total amount of TEUR 182,111 (refer also to Note 31, Related party transactions) with the corresponding entry to other reserves in equity (refer also to Note 22, Equity). The Group has contractually agreed the future acquisition of 33% in Super Sport d.o.o. from the non-controlling shareholder of Super Sport d.o.o. The transaction was finalized in 2022 (refer also to Note 32, Events after the reporting period).

As at 31 December 2021, other liabilities comprise also dividend payable to the parent company in total amount of TEUR 3,000 (2020: TEUR 0; 1.1.2020: TEUR 0) (refer also to Note 31, Related party transactions).

Except for the relation described above, the balance of other liabilities is notably represented by received deposits for betting and casino games, liabilities for unpaid wins and jackpots and provided vouchers for gaming.

Information about the Group's exposure to currency and liquidity risks is included in Note 4.

The fair value of other liabilities approximates to their carrying amounts as presented above.

21. Deferred tax liability and asset

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income taxes relate to the same fiscal authority.

	31.12.2021	31.12.2020	1.1.2020
	TEUR	TEUR	TEUR
Deferred tax assets	3	3	3
Deferred tax liabilities	(10,664)	(10,683)	(10,865)
Net deferred tax liabilities	(10,661)	(10,680)	(10,862)

The recognised deferred tax liability is attributable mainly to intangible assets resulting from acquisition of the former SAZKA Group Adriatic d.o.o. in 2019 (renamed to EMMA GAMMA Adriatic d.o.o. in 2020).

Movements in temporary differences during the period were as follows:

TEUR	Balance at 1 January	Recognised in profit or loss	Effect of movements in foreign exchange rate	Balance at 31 December
		(Note 30)		
Movements in 2021	(10,680)	49	(30)	(10,661)
Movements in 2020	(10,862)	49	133	(10,680)

22. Equity (continued)

Dividends and other distributions paid

During 2021, the Group declared dividends (including interim dividends) to EMMA ALPHA HOLDING LTD in the total amount of TEUR 105,500 (out of which TEUR 102,500 were paid in 2021). Dividends (including interim dividends) in the total amount of TEUR 18,426 and other distributions of TEUR 391 were distributed to minority shareholders of subsidiaries.

During 2020, the Group declared and distributed interim dividends to EMMA ALPHA HOLDING LTD in the total amount of TEUR 88,000. Dividends (including interim dividends) in the total amount of TEUR 17,681 and other distributions of TEUR 587 were distributed to minority shareholders of subsidiaries.

Other reserves

The Group has contractually agreed (refer also to Note 31) the future acquisition of 33% in Super Sport d.o.o. from the non-controlling shareholder of Super Sport d.o.o. in 2022. As it was agreed before 31 December 2021, the transaction was accounted for in accordance with present-access method and the financial liability in total amount of TEUR 182,111 was recognised with the corresponding entry to other reserves in equity (refer also to Note 20, Other liabilities). The transaction was finalized in 2022 (refer also to Note 32, Events after the reporting period).

23. Revenue from betting activities and casino games and other income related to gaming

	2021	2020
_	TEUR	TEUR
Revenues from betting activities	45,013	38,314
Revenues from casino games	60,411	47,571

Corporate income tax rates for tax domiciles of entities in consolidated Group for fiscal years 2021 and 2020 can be summarised as follows:

	2021	2020
Cyprus	12.50%	12.50%
Slovakia	21.00%	21.00%
Croatia	18.00%	18.00%

There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

31. Related party transactions

The Group's parent company is EMMA ALPHA HOLDING LTD and the ultimate controlling party is Mr. Šmejc.

Transactions and balances with related parties

	31.12.2021 TEUR	31.12.2020 TEUR	1.1.2020 TEUR

Total interest income		576	2,128

During the year, the Group sold 15% of shares in VOX-ZAGREB d.o.o. to a related party. For further information refer to Note 1.

The Group provided loans receivable at the total amount of TEUR 80,937 to its parent company and other related party during the year 2021. Loans were repaid before the year end.

Transactions with key management employees

EMMA GAMMA Adriatic d.o.o. ("EGA"), a subsidiary of the Company has entered into agreements with key management of Super Sport d.o.o., whereby EGA gave loans to them in the amount of HRK 48,434 thousand, while the management simultaneously acquired 1.55% of shares in Super Sport d.o.o. for the same amount. EGA is contractually obliged to re-acquire the shares from key management after certain period of time, while the loans given to them are non-recourse. The substance of this share purchase arrangement is that it represents an equivalent of employee benefit as shares are used as a legal mechanism to pay the benefits in return of the increase of the Super Sport d.o.o. investment value. Some of the agreements have additional call and put options, which carry an irrecoverable and unconditional unilateral right to sell or buy the shares at the exercise price which depends on the operating performance of Super Sport d.o.o. and the year in which the right is exercised. The difference between the estimated exercise price and price at which the shares were sold, discounted at appropriate rate, represent the employee benefits, which will be recognised over the contracted service period as staff costs, while interest received on the loans will be deducted from staff costs.

Shareholder agreements

EGA has contractually agreed the future acquisition of 33% in Super Sport d.o.o. from its non-controlling shareholder in 2022. The total purchase price for such acquisition was partially depending on Super Sport d.o.o. performance in 2021 and finally amounted to TEUR 182,111. The non-controlling shareholder had the unilateral right to partially cancel the sale which expired in 2021. The transaction was finalized in March 2022 (refer also to Note 32, Events after the reporting period).

32. Events after the reporting period

On 26 January 2022, the remaining 49% of shares in entity Minus 5 d.o.o. were purchased by EMMA GAMMA Adriatic d.o.o. from non-controlling shareholders for the total purchase price of THRK 12,256.

On 1 February 2022, EMMA GAMMA LIMITED and Mr. Ertan Öksüz entered into a term sheet concerning an acquisition of 60% shareholding in Aressu Holding Ltd, which is the sole shareholder of Torro Tec Ltd. Torro Tec Ltd is a sports betting operator holding a valid German sports-betting license. The purchase price for the shares shall be TEUR 7,400. As part of the transaction, EMMA GAMMA LIMITED shall contribute additional TEUR 4,600 into capital reserves of Aressu Holding Ltd, which will in turn contribute the same amount into reserves of Torro Tec Ltd. Closing of the acquisition is expected before the end of April 2022.

Under the share purchase agreement dated 4 February 2022, EMMA GAMMA Adriatic d.o.o. acquired from Mr. Danko Ćorić 33% shareholding in Super Sport d.o.o. The purchase price paid for the shares amounted to THRK 1,368,677 (TEUR 182,111). Completion of the transaction took place on 4 March 2022. As at 31 December 2021, the transaction was accounted for in accordance with present-access method and the financial liability of TEUR 182,111 was recognised in the statement of financial position with the corresponding entry to other reserves within equity attributable to the owners of the Company whereas the non-controlling interest of Mr. Danko Ćorić of TEUR 29,991 remained within total equity. After the completion of the transaction, the particular non-controlling interest was derecognized with corresponding entry (increase) in other reserves within equity attributable to the owners of the Company. No additional liability was recorded as the recognized liability of TEUR 182,111 corresponds with the total purchase price for the shares acquired in this transaction.

In March 2022, the Group entered into a new bank loan agreement for the total facility amount of EUR 230 million in order to repay the amount payable to Mr. Danko Ćorić of TEUR 182,111. According to the new loan agreement, the Group should make installments under the loan twice a year, every March and September, starting from September 2022. The maturity date of the loan extended to 2027.

The geopolitical situation in Eastern Europe intensified on 24 February 2022 with the commencement of the conflict between Russia and Ukraine. As at the date of authorising these financial statements for issue, the conflict continues to evolve as military activity proceeds. In addition to the impact of the events on entities that have operations in Russia, Ukraine, or Belarus or that conduct business with their counterparties, the conflict is increasingly affecting economies and financial markets globally and exacerbating ongoing economic challenges.

The United Nations, European Union as well as United States of America, Switzerland, United Kingdom and other countries imposed a series of restrictive measures (sanctions) against the Russian and Belarussian government, various companies, and certain individuals. The sanctions imposed include an asset freeze and a prohibition from making funds available to the sanctioned individuals and entities. In addition, travel bans applicable to the sanctioned individuals prevents them from entering or transiting through the relevant territories. The Republic of Cyprus has adopted the United Nations and European Union measures. The rapid deterioration of the conflict in Ukraine may as well lead to the possibility of further sanctions in the future.

The impact on the Group largely depends on the nature and duration of uncertain and unpredictable events, such as further military action, additional sanctions, and reactions to ongoing developments by global financial markets.

The financial effect of the current crisis on the global economy and overall business activities cannot be estimated with reasonable certainty at this stage, due to the pace at which the conflict prevails and the high level of uncertainties arising from the inability to reliably predict the outcome. The Group has limited direct exposure to Russia, Ukraine, and Belarus and as such does not expect significant impact on the Group's business operations, its financial position, financial performance and liquidity. However, the indirect implications will depend on the extent and duration of the crisis and remain uncertain. Management monitors the situation closely and will assess the need for any action to be taken in order to mitigate the potential risk.

On 20 April 2022, the company EMMA ALPHA HOLDING LTD increased the equity of the Company by TEUR 14,400 (with EUR 1 being contributed into share capital of the Company and EUR 14,399,999 into share premium) in order to cover the new acquisition and some other costs of the Company.

There were no other material events after the reporting period, which have a bearing on the understanding of the consolidated financial statements.

On 21 April 2022, the Board of Directors of EMMA GAMMA LIMITED authorized these consolidated financial statements for issue.
