

PRESS RELEASE

New EMMA Capital Group bonds met with great interest

Prague, 9 February 2026

EMMA Capital Group's new bonds, which began trading on 2 February, are now completely sold out, despite their original volume of CZK 1.25 billion being increased to the maximum limit of CZK 2 billion. The Group thereby successfully continued its previous bond program issues.

The secured bonds, issued by EMMA Finance CZ, have an interest rate of 6.35%, are denominated in Czech crowns, have a five-year maturity, and were subscribed through J&T Banka, PPF Banka, and UniCredit Bank. The issue date is 27 February of this year.

"We are, of course, glad that there is such interest in our securities," said Pavel Horák, investment director and partner at EMMA Capital. "We consider this an affirmation of the fact that, over the 13 years of its existence, our Group has earned a firm place among the respected investment companies in our country."

The funds raised by EMMA Capital through the subscription of its bonds will be used to finance the Group's further growth.

EMMA Capital is a private investment holding founded in 2012 by Jiří Šmejc. In recent years, it has focused primarily on markets in the European Union, but is also present in other markets in Europe. It usually plays an active role in companies where it acquires an equity stake, participating in their management, development and any potential restructuring. EMMA's investment priority is retail and customer-oriented companies, and it is also successfully entering the B2B segment.
